

Screen Clamping and Hold Down Bars

Advanced Engineering Group manufacture our own clamp bars made from laser-cut 6mm & 8mm plates to suit any side tensioned screen box.

Available in Steel, polyurethane or rubber coating for better wear and impact, we can custom make these to suit any requirements.

Centre hold down bars available in steel, rubber & polyurethane or custom made to suit any bolt down or J-Bolt setup.

Reference Code	Description	Length (Feet)	Length (mm)
A Clamp40	Clamping Bar- 6mm Blank	4.0	1220
